REAL CUSTOMERS. REAL ISSUES. REAL SOLUTIONS.

“

We were using a different company for voice and data services. Our office was expanding so we began to look around at other companies to assist us in our move to our new location. Paul Watts and his talented staff at Electronet came in and designed a new phone system, phone lines and internet access – the transition was fast and easy. I was tired of the 800-numbers and auto attendants, so I really enjoy having a local company that provides the personal touch and attentiveness to all of our needs. We are thrilled with our partnership with Electronet and would recommend them to anyone that is interested in improving their quality of service and reducing their expenses.”
